

JUAN JOSÉ BURBANO BOLAÑOS

Pasto, COL • juanbmusic8@gmail.com • +57 318 438 5907

PROFESSIONAL PROFILE

Sixth-semester Software Engineering student (out of eight), with strong knowledge in programming and technical problem-solving. Skilled in teamwork, quick learning, and adapting to new challenges. Experienced in academic projects related to software design and development, as well as the implementation of innovative technological solutions. Special interest in backend development, with a focus on API creation and database management. Knowledgeable in languages such as Java and the Spring Boot framework. Committed to continuous learning and technical skill improvement to contribute to high-impact projects.

EDUCATION

February 2023 – November 2026 (In progress)

Software Engineering

Universidad Cooperativa de Colombia, Pasto- Col

Courses and Certifications

Java Programming Course

Universidad Mariana, Pasto- Col

August 2021

Github Actions Bootcamp

Código Facilito

July 2025

Software Architecture Fundamentals

Código Facilito

June 2025

Big Data Architectures

Universidad de los Andes

July 2025

Architecting Solutions on AWS

Amazon Web Services

July 2025

Professional experience

Frontend Development & Sales – Construction Materials Store

Independent Project

Duration: January 2025 – February 2025

- Designed and developed the frontend interface for a construction materials store.
- Implemented technologies such as TypeScript, React, and Tailwind to deliver an intuitive, responsive, and user-friendly experience.
- **Key Achievement:** Successfully sold the project to the client, showcasing strong ability to identify business needs and deliver effective, functional solutions.

POS System (Point of Sale) – Java

Academic Project – Software Patterns Class

Duration: September 2024

- Developed a POS system in Java to manage sales, inventory, and transactions.
- Applied object-oriented programming (OOP) principles and implemented software design patterns, integrating the system with a MySQL database.
- Designed and built a functional user interface to ensure seamless user interaction.

Comprehensive Academic Management System with AI, IoT, and Cross-Platform Applications

Undergraduate Thesis Project – In Progress / Startup Initiative (SAS formation)

Duration: August 2025 – November 2026

- Conducted meetings with the principal of an educational institution to identify needs and present technological solutions.
- Designed and developed an **integral grade management platform** that includes:
 - **AI-powered scheduling system** for optimized class timetables.
 - **IoT-based attendance tracking** integrated with academic records.
 - **Web platform for students** to provide anonymous teacher evaluations.
 - **Mobile applications** for Android (Flutter) and iOS (Swift/SwiftUI).
- Demonstrated leadership in communication, negotiation, and execution, while transitioning the project into a **scalable business initiative (SAS)**.

Electronic Health Record (EHR) and Appointment Management System – Java (Spring Boot)

Academic Project – Software Architecture Class

Duration: May 2025

- Developed a clinical system with features for patient registration, medical history management, appointment scheduling, notifications, and digital document signing.
- Integrated medical record storage using **Amazon S3** and implemented secure access control with **Spring Security**.
- Applied **software architecture principles** and designed the system with **Java (Spring Boot)** and **MySQL** as the database.

Technical skills

Java Programming (OOP, Spring Boot) | Databases (MySQL and MongoDB) | Version Control (GIT and GitHub) | Frontend Technologies (React, TypeScript, TailwindCSS) | AWS | Software Architecture | Big Data

Software Proficiencies

- **IntelliJ IDEA** (IDE for Java)
- **NetBeans** (IDE for Java)
- **Visual Studio Code** (Code Editor)
- **MySQL Workbench** (Database Management)
- **Git and GitHub** (Version Control and Repository Management)
- **AWS** (Cloud Computing)

Languages

- Spanish: Native.
- English: Intermediate (B1)
